

DYING MAN HELD BY B. R. T. TO GET ALL FARES

After Running Down a Victim, Train Is Delayed as Ambulance Waits.

A Sea-Beach train on the Brooklyn Rapid Transit line was running along between Eleventh and Nineteenth avenues last night when the passengers in the first car were startled by the sight of a man's body lying through the air and dropping in the snow at the side of the track. The train rushed on with undiminished speed.

"The train had hit a man," said several passengers, who were startled by the sight of the body lying through the air and dropping in the snow at the side of the track. The train rushed on with undiminished speed.

The train stopped at the next station and the passengers were told to get out. The man was lying on the ground, and the train was delayed as an ambulance waited for him.

ARMED FORCE RAIDS A BURGLARS' DEN

Latimer Tragedy Suspect Is One of the Dangerous Trio Captured.

The police of Brooklyn to-day raided a burglar's den at No. 38 Carson street. They battered down the door, and with guns drawn covered three men before the latter could offer even a show of defense.

"It was well they did, too," said Capt. McCauley, of the Detective Bureau. "The men of this den are a dangerous trio. They are all armed, and they are all dangerous."

GAVE UP HIS \$15, BUT GOT NO JOB

Police Think They Can Find Other Victims—Accused Man Held in \$1,000.

Michael Conklin, of No. 74 Ninth avenue, in West Side Court to-day was charged by James McHugh, of No. 821 Sixth avenue, with getting \$15 from him on promise of a job which never existed.

McHugh says he was approached by Conklin in the Church of the Diocesan of Christ, in West Fifty-sixth street, and that Conklin represented himself to be "head paymaster of the American Bridge Company, that is building the Blackwell Island Bridge."

Conklin, according to the complaint, said that he didn't like a certain man who was holding a \$15 a day job, and that for \$15 he could get the place for McHugh.

McHugh says he paid, and after waiting nearly a week he called up the bridge construction company, which happens to be the Pennsylvania Steel Company, asking for Conklin. The reply was: "Are you another one of Conklin's victims?"

When McHugh learned that several men had called up to see a warrant and had Conklin arrested, he called McHugh and told him that he had found a list of nine names which they wished to investigate, and the Magistrate set Conklin in \$1,000 bail for arraignment Feb. 20.

CRUEL MR. METZ, TO RAISE VAIN HOPES

"Competent Accountants," After \$3,500 Job, Swamp Comptroller's Office.

The Finance Department was swamped with mail to-day. The corridors were filled with a mob of "competent accountants," and Comptroller Metz, warned in advance, took a three days' trip to tall timber to wait till the storm blows over. It all came about because somebody took the general Comptroller seriously when he said he would fill a \$3,500 place without regard to politics or pull or anything except fitness for the position.

Hundreds of thousands of people in Greater New York are unacquainted with the altruistic talk of the Comptroller when he is in a good humor, and thousands took his utterances at 100 cents on the dollar.

The story was printed Sunday morning in a Brooklyn paper, and before Metz could get to work he had to disconnect his phone and hide in the coal bin. The Comptroller's office was besieged by a fighting mob of applicants, and he had to sneak out of the back door and climb a fence to get to church.

This morning Mr. Metz sent word to his office that he will be out of town and beyond telegraphic communication for three days, and the Deputy Comptroller was left to sort the mail, and deal with persistent applicants.

Two truck loads of letters, each marked "Personal," "Important," "In Haste," or with some other equally urgent notice, were carted into the Comptroller's office when it opened at 10 o'clock, and all day long they came. "Expert accountants," willing to sacrifice themselves for the dear people at \$2,500 per, were as common as blackberries in an old pasture.

The Deputy Comptroller and three secretaries were kept busy all day explaining that there is no vacancy as advertised. A Slattery, who resigned Saturday, held his position by special assignment and it might not be filled again at all.

SHARPS LOOK FOR THESE SEA FLATS

Minnetonka Here with Two Suites Just Like New York's Best.

The first ideal flat—it is, janitorless—floated into New York to-day aboard the Atlantic Transport liner Minnetonka and tied up at Pier 50 North River. The flats—there are two on board—were unoccupied, but the New Yorkers who were passengers on board voted them a huge success and dubbed their section of the promenade deck "Minnetonka Square."

The flats are six and four rooms, respectively. They were installed while the ship was in London. They will be furnished on the next trip. They have all the conveniences of a land flat—doorbell, name-plate, drawing room, bedrooms, dining-room and servants' room.

The Minnetonka had trouble getting to her pier owing to the ice floats in the ship. Two tugs battled for an hour with the ice and finally succeeded in pushing it out so that the steamer's gangplank could be lowered.

There were thirty-three thoroughbred sailors on board bound for Chicago and Princeton. The educated couple, who can outdo most humans in general arithmetic and pick out and color known. The ship also carried six prize bulldogs and one prize pony; not forgetting a jackal who is said to be a wonder.

For six days the Minnetonka fought heavy seas. Most of the passengers lost interest in the dining-room. The vessel came up the bay ice clad from water line to mainmast.

LABOR UNION WINS ITS FIGHT IN COURT.

Judge Dismisses Application to Name Receiver for New York Electrical Workers.

Attorney-General Jackson lost again to-day in his effort to intervene in a squabble between two labor unions. Justice Gleicher denied the application of Special Deputy Attorney-General McNulty, of Saratoga, for the appointment of a receiver for the New York Electrical Workers' Union.

This union has 1,400 members, and is stronger than all the local unions of the International Brotherhood combined. It is an independent union, and Benjamin Patterson, declared before Justice Gleicher that the Brotherhood had forced the cause of the Brotherhood in the name of the State.

It was charged that the money of the union was being wasted or stolen, but Thomas J. O'Neill showed that the money alleged to be misappropriated had simply been deposited in savings banks to earn interest.

Justice Gleicher said: "The papers contain no statement of fact except on information and belief, and disclose no source of the information. The motion is denied with \$10 costs."

HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever.

In the good old-fashioned days of our grandmothers few drugs were used in medicines. They relied upon roots and herbs to cure weaknesses and disease, and their knowledge of roots and herbs was far greater than that of women today.

It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

ANTY DRUDGE

Anty Drudge Helps the Drama. Theatrical Manager: "Your costume bill is appalling! Three \$400 gowns in two weeks!"

Star: "Well, they got grease paint on them, and you can't expect Juliet to appear in a white tunic that's spotted."

Anty Drudge: "Just buy a cake of Fels-Naptha, Mr. Manager, and you can make every one of them tunics as white as ever. Fels-Naptha will take out grease paint, grease and every other kind of stain, and it won't harm the most delicate fabric."

Moral stains are the only kind Fels-Naptha won't take out. Coffee stains, fruit stains, ink stains, blood stains and grease spots are easy for it. While the soaped clothes are soaking in cold or lukewarm water, Fels-Naptha dissolves the matter that makes the stains into tiny particles. A light rub in rinsing sends them flying, leaving the clothes white and pure. All this without boiling or hard rubbing.
